

December 7, 2023

Dear Friend of the Auxiliary,

I am writing to you during this holiday season because of an urgent request for Guam SDA Hospital. Their mammogram machine is in need of repair and the replacement part costs \$21,000 US dollars. Without the part, mammograms cannot be done at the hospital for the time being. Mammogram screening for breast cancer saves lives and I have been witness to the survivors who were fortunate to have mammography available in a timely, locally accessible manner.

I am wholly supportive of women's health care and will be donating \$1,000 personally to fulfill this urgent need. If it is your desire to help, please donate through our website: lumedaux.org and designate GUAM to be the recipient under Missions, or send a check to the LLU Medical Auxiliary at: 11245 Anderson St. Suite 230, Loma Linda, CA 92354.

Sincerely yours,

Patti Batin Hall SM '88
